Social Media and SEO Management

It is a fact that if businesses do not have a social media and online presence, their potential customers or clients will go right to their competitors that do. While traditional marketing still has its place, if a social media and online presence is lacking, that will hurt any business. Many business owners are aware of this, however they do not have the time or resources to maintain a social media and online presence that is critical for keeping afloat.

Gemini Rising Ltd offers high quality, affordable and scalable social media, SEO and blog services for any businesses.

HOW GEMINI RISING LTD CAN HELP

Online marketing involves more than just having a social media page or account, or even a website. You need the right strategy and the right tools to ensure that all of your marketing efforts help you reach your business goals. Gemini Rising realizes that those goals isn't always easy to execute, and that's why we are here to help.

Is Reputation Management Worth the Time?

Of consumers who have complained about companies on social media, 58% expected a response from the company, 42% expected a response from a company within a day, but only 22% said they'd actually gotten a response. Social media needs constant monitoring and quick engagement, not just casual involvement.

October 2010 [TechCrunch](#)

"[Small businesses] need simple and effective tools to track customer conversations. [VendAsta's product] is one of the strongest we've seen to date."

Greg Sterling, Senior Analyst
